Re: Choice Wireless, LC
Hearing Aid Compatibility Report
WT Docket No. 01-309

Dear Ms. Dortch:

Pursuant to the Commission's *Report and Order*, WT Docket No. 01-309 (rel. Aug. 14, 2003) ("Order") and its subsequent Public Notice (DA 04-630, rel. Mar. 8, 2004), Choice Wireless, LC ("Choice"), a Tier III carrier serving portions of rural Texas and Oklahoma, submits the following report in the form prescribed by the Commission. As a carrier, Choice has no access to information responsive to many of the questions posed by the Order. Accordingly, Choice's responses are limited.

- (1) Digital Wireless Phones Tested
N/A
- (2) Laboratory Used
N/A
- (3) Test Results for Each Phone Tested
N/A

(4) Identification of Compliant Phone Models and Ratings According to ANSI C63.19

As required by Section 20.19(c)(2) of the Commission's Rules, Choice has available for sale in each retail outlet the following two handset models certified by their respective manufacturers as compliant with the standards established by Section 20.19(b)(1) of the Commission's Rules:

Motorola V220
Motorola V3 Razr Color

Each model is available to consumers for in-store testing.

(5) Report on the Status of Product Labeling

N/A

(6) Report on Outreach Efforts

Choice has developed a hearing aid compatibility information sheet designed to educate customers in their selection of handsets. This information is available in each retail outlet. Sales staff has been trained to demonstrate the operation of HAC-compliant handsets and are able to direct customers to additional sources of information.

(7) Information Related to Retail Availability of Compliant Phones

As a small carrier, Choice relies on its wholesale distributors who, in turn, are dependent on manufacturers. Generally, smaller carriers are disadvantaged in terms of immediate access to newer model handsets. Choice continues to review the retail marketability of compliant phones available to it on a retail basis.

(8) Information Related to Incorporating Hearing Aid Compatibility Features into Newer Models of Digital Wireless Phones

N/A

(9) Any Activities Related to ANSI C63.19 or Other Standards Work Intended to Promote Compliance with the Order

N/A

- (10) Total Numbers of Compliant and Non-compliant Phone Models Offered as of the Time of the Report

Two (2) Compliant and Nine (9) Non-Compliant Phone Models

- (11) Ongoing Efforts for Interoperability Testing with Hearing Aid Devices

N/A

Please refer any questions regarding this report to the undersigned.

Respectfully submitted,
